POSITION

To the Esteemed Recruitment Team,

I am writing to express my interest in the POSITION for the TEAM_NAME team.

About Me

I hold a Master's degree in Electrical Engineering with a specialization in Systems Engineering, graduating in December 2020. After completing my studies, I began my career at ELCA, a Swiss IT company, where I worked as a Systems Engineer. In this role, I was responsible for new features in the company-wide CRM software using Python and conducting business analysis to onboard and collaborate with new clients effectively.

Currently, I work at Devoteam, where I transitioned to web development and cloud engineering. I have contributed to various projects in the automotive and energy sectors, focusing on helping clients reduce costs and enhance daily business outcomes. By creating better user interfaces, optimizing systems, and driving automation, I strive to deliver impactful and efficient solutions.

Why Me?

With my professional experience and academic background I bring a strong foundation in developing, analyzing, and optimizing complex systems and the technical expertise and good understanding required to address complex challenges. I am an analytical, responsible, and organized software engineer, excited to learn new technologies, integrate into a new team, and bring fresh perspectives.

I am looking forward to hearing from COMPANY.

Sincerely,

Antonia Alice Frey
